User manual for: "The Annoying Audio Application".

This user manual is created for you, the user, to hopefully give you a more pleasent experiance of this application. Please read it thoroughly. Buckle up, its time for annoyance!

1. User manual
You find the user manual by pressing the user manual button. But you already know that, beacuse you are reading this! Please continue to read in the user manual to get you ready for your first real interaction of my application.

2. Play the audio!
How to make it do a sound?
- Press any of the the buttons called; Audio 1, Audio 2, Audio 3.
    - Before you start, please turn down your audio output (just to make sure).

3. Make it stop!
How to make the sound go away:
- Find the pop-up dialog window on the screen.
- Press the OK button to make it go away!
    - (You can start it again if you miss the lovley sound.)

4. Closing the application
Built in to this application is a standard closing function for you to use:
- Press the cross "X" in a corner of the application.
    - Which corner it is, depends on your computer.
    - Hint: Left for macOS & Right for Windows.
